Comments: Read Contractor Reference on KCR site. Called and made appointment for toilet bowl reset and replace flushing mechanism. L.D. was the rep who gave me estimate and was authorized to do the work. Replacing the wax seal and was done very quickly as well as the mechanism for flushing. Very pleased with the price and efficiency on installation. Would definitely use again.

Comments: I am absolutely kicking my self for not finding Jeannie before we remodeled our upstairs bathrooms this winter/spring (which took our other contractor 6 months to complete). Her and her crew will blow you away with their quality and speed of work. We came home 4th of July weekend to water leaking from the plumbing of our brand new, week-old master bathroom tub, which in turn, damaged our kitchen ceiling below. I called Jeannie and her and her crew came in and not only fixed the plumbing but re-did our entire kitchen ceiling (fixing the water damage and removing the huge 1980's florescent light box, putting in new framing, drywall, paint, and new can lights all in 5 days)! My husband and I were shocked at how professional the workmanship was and how fast the work was accomplished. We plan to use Jeannie again for future projects big and small and I highly suggest giving her a call if you want your remodeling project done right, the first time.
